

Building **Green** With...

# GREEN InsulWall

**Superior thermal performance, durability and modularity**

## GREEN Benefits

- Easier on the environment
- Reduced carbon footprint 4x lower than virgin fiber
- Optimal thermal performance

## GREEN Details

- Recycled insulation
- ASTM E84, Class A, Fire Rated
- Modular and moveable

## Third-Party Recognition

- Contributes to LEED\* score

**GREEN** InsulWall effectively divides temperature and space with the added value of **GREEN** properties. Learn how the attributes of GREEN InsulWall can contribute to your project's LEED score.
