

ALUMINUM APRONS & ROLL UP GUARDING

PRODUCT INFORMATION

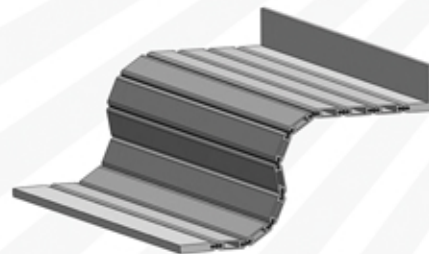

Shaver Industries manufactures spring-loaded roll up machine guarding covers. One of the most common workplace injuries is hand injuries and our roll up machine guarding covers prevent operators from getting their hands or feet inside of the machines. The guarding also contains flying debris which could potentially injure someone. Our roll up machine guards are custom made for every application. When customizing a roll up machine guard, we ensure that the machine guard is developed to suit your environment, duty, and cycle count.

FEATURES

- Made from Aluminum materials.
- High-temperature safety guards (Environments hotter than 140 degrees Fahrenheit need different shades – we offer shades that withstand 1200°F).
- Available with or without canisters.
- Retractable (roll up) machine safety guard shade can be mounted and placed based on your application and facility space.
- Steel protective case housing available for retractable (roll up) machine guarding.
- Each of our rollers are custom designed for your application based on the use, environment, number of cycles, and shade colour.

KEY BENEFITS

- Protection from heavy chips
- Protection from oil and coolant
- Protect employees from moving machinery
- Wide range of options/accessories

APPLICATIONS

- Milling/Drilling machines
- Machine way protection
- Roll-up machine door
