

# ROLLTECT™ ROLL UP PIT COVERS

## PRODUCT INFORMATION

Shaver Industries heavy duty roll-up pit covers are designed to walk on with minimal deflection to protect workers from moving machines, open pits, machine tool chargers and large chemical tanks. Designed with a resilient manufacturing process, our heavy duty machine guarding products are well-made and dependable for your facility needs. The heavy-duty machine safety guards are made from aluminum and steel to provide optimal protection of machine ways from contaminants and coolants. Available in a variety of OSHA compliant options, these products can be made in a canister housing or mounting brackets. Our RollTect™ Pit Covers are specifically designed to ensure a safe walking environment in your facility.

## FEATURES

- High-temperature safety guards available.
- Available with or without canisters.
- Retractable (roll up) machine safety guard shade can be mounted and placed based on your application and facility space.
- Steel protective case housing available for retractable (roll up) machine guarding.
- Each of our rollers are custom designed for your application based on the use and environment.
